1. For the teacher

In order To improve the students' ability in using preposition of *place* the teacher should give the student explanations and practices more about how to use preposition of *place*. The explanation and practice should be focused on types of preposition of *place*, *in front of*, *beside*, *between*, *from*, *on*, *below*, *over*, *in*, *next to*, *to*, *above*, *opposite*, *outside*, and *under* because the student of SMP Negeri 5 Kupang in the school year 2018/2019 still made mistake in using preposition of *place* in sentences.

2. For the student

In order to improve their ability in using the preposition of *place* the student should do more exercises about the use of preposition of *place*. The practice can be done in the classroom or at home by doing the homework. By doing this the students are expected to master the preposition of *place* as one of the English grammatical aspect which might help them to communicate in English well with other people in their daily life.
