

## **CHAPTER V CONCLUSION AND SUGGESTION**

### **5.1. Conclusion**

Based on the findings and discussion previously presented, it can be concluded that:

1. Using animated picture to teach speaking can improve the students' speaking accuracy at the first year students of SMA Negeri Keberbakatan Olahraga Flobamorata Kupang especially Class 11 Science 2. The results shown from the first cycle the students' achievement was low from the student were participate that were 1 students got good, 3 students got fairly good and 4 students got fairly. But at the second cycle improved to 4 students got good, 2 students got fairly good and 2 students got fairly.
2. In the result of the research conducted on 9<sup>th</sup> august until 19<sup>th</sup> august there was improvement for students' pronunciation and fluency. The first cycle showed that from successful student fluency and pronunciation was 4 students and 4 were not successful while at the second cycle the categories of success was 7 students and 1 not success.

### **5.2. Suggestion**

In relation to the conclusion above, the writer would like to suggest:

1. The teacher should give them more exercise to read the stories and try to speak with each of them
2. The teacher should give feedback after students do their homework
3. While pandemic especially the students who live at the dorm will be able to do the class offline because online not 100% percent can improve the students speaking skill.
4. Engage the student interest to more exciting to learn about English.
