

CHAPTER IV

DATA ANALYSIS AND DISCUSSION

In this chapter, the writer discusses about errors in the translating the text from Indonesian into English made by the thirty students of SMPN 10 Kupang. The writer analyzes those errors based on five aspects in surface strategy taxonomy. They are Omission, Addition, Misformation, Misordering and Miscellaneous.

4.1 Data Analysis

In analysing the data, the writer follows some steps as stated in the following. (1) Reading the translation of each student. It is intended to see whether the students are right or wrong. The wrong sentences are of course error sentences. (2) Classifying the errors in the light of the surface strategy taxonomy. The complete analysis of all sentences are put in the following table. (3) Counting the number of the students that make the same errors. It covers omission, addition, misformation, misordering and miscellaneous.

4.1.1 Error Identification

In this part, the writer presents sentences produced by the students which may contain five types of errors : Misformation, Omission, Addition, Misordering and Miscellaneous.
