

## CHAPTER 5

### CONCLUSION AND SUGGESTION

In this chapter, the writer would like to give some conclusions based on the problem statement and the result of the data analysis. The writer also provides suggestions that hopefully will be useful for the English Teachers of the researched school.

#### 5.1. Conclusion

Based on the result of the data analysis and discussion in previous chapter, the writer makes the conclusions as follows:

1. The student's ability level in filling in the missing words in English songs is “**Good**” (78.87).
2. The difficulties found by the eighth grade students of SMP Negeri 6 Kupang Tengah in filling the missing words and answer the question when listening to the English song are having lack of vocabulary, grammar in answer the questions, and they were not able to differentiate similar sounds and similar writing, for example Bright and Right, Break and Bread, Pain and Rain, and Reaching ang Rich.

## 5.2. Suggestion

Based on the data analysis and discussion, the writer would like to give some suggestions that might be useful for both the English teacher and the students of the researched school. The suggestions are presented in detail below:

1. For the English Teachers of the Researched School.

Teacher must pay more attention to the build student's abilities in learning English, especially in listening skill so that teacher is able to create creative learning style and make students and enthusiastic in learning English, especially in listening material. By preparing creative learning materials, teacher can help there student to improve their English skills, both in vocabulary and pronunciation.

2. For the Students

Students can improve their listening skills by listening to English broadcast, songs, videos, and conversation so they can learn more words or vocabulary.
