BAB V

CONCLUSION AND SUGGESTIONS

This chapter presents the conclusion and the suggestion of the study. The conclusion goes in line with the problem statement and objective of the study having been stated in Chapter I, the theory having been decided in Chapter II, methods and techniques of the data analysis having been applied in Chapter III, and the result of the data analysis having been found in Chapter IV. Suggestions is proposed based on the significance of the study having been stated in Chapter I, the result of the data analysis, and the conclusion presented in present chapter.

5.1 Conclusion

Based on the result of data analysis and discussion of the results in the previous chapter, it was concluded that after being given the treatment there was an increase in speaking comprehension after using the cake application. The researcher can conclude that the use of cake application effects on improving students' speaking skills. Before the cake application was implemented, students were less interested in learning to speak. After the cake application was applied, the students were very interested and enthusiastic in the learning process, especially in speaking. The students were more interested in using the Cake application because of the various features and short videos that were presented. Therefore, it can be concluded that the benefits of using cake application in the classroom, especially for their learning in speaking are they can improve their fluency, their vocabulary, their grammar, their comprehension, and their pronunciation. Using cake application in the classroom can make the students more active and enthusiastic in the classroom, the students become happy and more interested in learning well.

5.2 Suggestions

Based on the conclusion of the study and the result of the data analysis above, the writer would like to suggest the person, both as a personal or institution in accordance with their role and their responsibility.

There are some recommends proffered as follow:

1. For English Teachers

   After conducted this research, English teacher is highly suggesting to use Cake application in their teaching-learning process because cake application has many advantages, especially in improving the speaking skills of the students.

2. For seven grade students of SMPK Rosa Mystica Kupang in academic year 2023/2024.

   Based on the result of the study, they can use Cake application for their learning, especially to improve their speaking skills.

3. For the researcher candidate.

   For the next researcher who wants to use the same variables as this research, Cake application is suggested for different situations, conditions, and even grades to create a renewal strategy that is relevant to students' speaking skill.
