

CHAPTER I

INTRODUCTION

This chapter consists of seven points to be treated i.e. background of the study, statement of problems, objectives of the study, significance of the study, scope and limitation, definition of terms.

1.1 Background of the Study

Language is the most important tool in the life of human beings. It is used to communicate. Indeed, language influences all aspects of life. Even, it is said that language can not be separated from the life of human beings.

There are so many languages in the world. Among them is English. As other languages, English has its own rules. The rules of English are different from other languages. Lado (1956) argues that the differences of English may cause difficulty for those who learnt it. Learners tend to keep their mother tongue as a rule instead of the rules of the foreign language.

Learning English is very interesting, because we can know many words, how to pronounce them, how to listen them, and how to write them. English is an international language which is used by many people around the world including Indonesia.

In Indonesia English is regarded as the first foreign language. It is learned compulsorily from elementary school up to senior high school. By learning English, learners are expected to be able to use it in their daily life. To be able to

use it, learners have to be proficient in the English skill namely : Listening, Speaking, Reading, and Writing which are supported by English sub skill : grammar, vocabulary, pronunciation. Grammar is the structure of a language and the way in which linguistics such as words and phrase are combined to produce sentences in the language(Richard et,al.1985).

Simple past tense is used to express finished activities that happened in the past.

The formula of simple past tense: S + VERB-2 + O + A.

Example: *He played badminton yesterday.*

In this study the writer choose the eighth grade students of SMPK Sancta Familia Kupang in school year 2018/2019. The reason to choose this school to be the subject of this study, because the writer experienced when doing teachers training or Praktek Pengalaman Lapangan (PPL) she found that students still committed errors and mistakes in using simple past tense. For axample: *Mary is sick yesterday*, the sentence is ungrammatical. The correct sentence is *Mary was sick yesterday*.

By seeing at those problems, as an English teacher to be in the future, the writer is intends to analyse the ability level of students at SMPK Sancta Familia Kupang in using Simple Past Tense and the area of difficulties committed by the students in constructing Simple Past Tense. In order to answer those problems, the writer is going to conduct a research entitled **“A Study on the Ability In the Using of Simple Past Tense of The Eight Grade Students of SMPK Sta. Familia Kupang in the School Year 2019/2020”**.

1.2 Statements of the Problems

The problems to be answered in this study are formulated in the following questions:

1. Are the eighth grade students of SMPK Sancta Familia Kupang able to use the simple past tense in sentences?
2. What is the ability level of the students in using the simple past tense in sentences?

1.3 Objective of the Study

The objective of this study are are stated in the following:
