CHAPTER V

CONCLUSION AND SUGGESTION

This chapter divides into two sub-chapters, as conclusion and suggestion. The writer explains it clearly as below.

5.1 Conclusion

The writer explains and makes the conclusion about the result of data analysis. It also answers the problem statements of this study. This conclusion focuses on the errors study about the types of errors and the most frequent errors that are made by the eighth grade students in writing procedure text. The writer finds the total errors that are made by the eighth grade students are 65 errors.

5.1.1 The Types of Errors

The result of data analysis about the types of errors that are made by students cover omission errors 41 (63.07%), addition errors 16 (24.61%), misformation errors 8 (12.30%), misordering errors 2 (3.7%).

5.1.2 The Most Frequent Errors

The most frequent error made by students is omission error. It means that the students omitted articles, the prepositions, the subject, noun, and verb agreement.

5.2 Suggestion

The writer gives some suggestions about the result of this study and this also bases on significance of the study. This suggestion is presented to the English

teacher, The students, and the future researches.

1. The English Teacher

    Base on result of the data analysis, the writer presents the suggestion to English teachers in SMPN 4 Kupang should be aware on grammatical errors that are made by students in writing skill, thus they can recognize and pay attention of the errors that are made by students. Base on data analysis in this study, the grammatical error that are committed by students, as the article, the preposition, the subject and verb agreement, plural marking. Although, the teacher should give more exercises to improve the students grammatical errors.

2. The Students

    The students should study more about the English grammatical and writing procedure text, because it is very benefit to improve their knowledge's about the article, the preposition, the subject and verb agreement, plural marking and simple present tense.

3. The Future Researches

    Base on the result of this study, can inspire and motivate other researchers to conduct this study.
