

CHAPTER V

CONCLUSION AND SUGGESTION

5.1 Conclusion

This study found that students in the SMAN 7 Kupang used formal and informal strategy from Redekerbased on the circumstances in their different daily lives and their individual characteristics. The writer also found that the students of SMAN 7 Kupang use 2 strategies in expressing like and dislike by Redeker (1990) theory namely formal and informal, and the most dominant strategy that used by the students of SMAN 7 Kupang is a informal strategy.

5.2 Suggestion

The suggestions are as follows :

The teachers are suggested to familiarize their students with different kinds of formal and informal in expressing like and dislike and encourage them to use the strategies in their daily communication.

The students should practice themselves to communicate in a e used as motivation to communicate in this study can help students in learning pragmatics, especially in expressing like and dislike.

The future researcher needs to conduct other studies on expressing like and dislikes should be able to increase their knowledge and experience in good and correct communication and apply the knowledge gained in college to real problems faced in the world of education and become provisions for the future.

APPENDICES
