

CHAPTER V

CONCLUSION AND SUGGESTION

In this chapter, the researcher will present the conclusion and suggestion of the study. The conclusions are done based on the result of the data analysis and discussion on chapter IV which is line with the problem statement.

5.1 Conclusion

As has been stated in previous part, this study was carried out by the purpose of finding the answer of whether or not the tenth grade students of SMA Negeri 7 Kupang in the school year 2014/2015 able to write recount text, what the students' level of ability is and what the students' area of difficulties are.

After the researcher analyzed the students' work sheets, the researcher can take some conclusion as follows:

1. Based on the analysis the data, the researcher would like to say that the tenth grade students of SMAN 7 Kupang (class X^A) in general are able to write recount text.
2. The level of the students' ability is classified as "AVERAGE" (3.61) based on the average grade. There was no student who got excellent and very good score levels of ability. There were 6(30%) students who got good level, 10(50%) students who got average level and 4(20%) students who got below average. No student who got bad level of ability.
3. The area of difficulties faced by almost all the students are found in three aspects of writing: vocabulary (55%), grammar (30%), and mechanics (15%) as have been discussed in chapter IV.

5.2 Suggestion

Although the students are able to write a recount text, they still make mistakes; therefore the researcher wants to give suggestion to the following persons:

1. For the English teacher

The English teacher of SMA Negeri 7 Kupang should pay more attention on the teaching of writing recount text focusing on the teaching of grammar (past tense) and help them to improve their knowledge about vocabulary.

2. For the student

The students should learn grammar and vocabulary in order to improve their writing especially recount text.
