

CHAPTER V

CONCLUSION AND SUGGESTION

In this chapter, the writer presents the conclusion and suggestion of the study, the conclusions are done based on the result of data analysis and discussion on chapter IV which is line with the problem statements.

5.1 Conclusion

As has been stated in previous part this study has been carried out with the purpose of finding the answer whether or not the eleventh grade students of SMA Swasta Tunas Harapan Kupang able to write a recount text and what their ability level is.

After long analysis on students' work sheet, the writer comes to write the following conclusions.

1. The eleventh grade students of SMA Swasta Tunas Harapan Kupang are able to write a recount text.
2. The level of students' ability is classified as "Average" (11) based on standard of measurement used.
3. The problem faced by almost all the students is lack of grammar, vocabulary and form so that the students find difficult to combine a sentence to become a good paragraph and finally form a good recount text.

5.2 Suggestion

The result of this study shows that most of the eleventh grade students are able to write a recount text, they still committed many errors; therefore, the writer wants to give suggestion to the English teacher of SMA Swasta Tunas Harapan Kupang. The teacher should give more attention on the teaching of grammar especially simple past tense, preposition, article and the use of pronoun and give explanation to the students about the generic structure in writing recount text. The problems faced by the students were on grammar especially the use of noun as modifier, the use of linking verb to be, the use of passive construction and to be followed by full verb (I'm play), word order and vocabulary.
