

CHAPTER V

CONCLUSION AND SUGGESTION

Based on the results of analysis presented in chapter IV, the writer would like to draw some conclusions and offer the suggestion as follows:

5.1 Conclusion

From the result of the research findings about the use of natural approach in reading comprehension ability of the eighth grade students of Junior High School, there are some conclusions. After the writer analyzed the result of action research which had been conducted to enhance the reading comprehension ability of the eighth grade of junior high school students, it could be seen that the use of natural approach in teaching reading comprehension ability can enhance students' reading comprehension ability.

From the observation, the researcher found that during the action, the students have shown their improvement such as they are able to comprehend the text well, the situation of the teaching and learning process becomes more joyful and interesting, the students also didn't reluctant to open their dictionary, and all of the students were involved in the teaching and learning process. The enhancement of the students' reading comprehension ability is also supported by the result of the test score.

The research was conducted to find out to what extent the use of reading comprehension ability using natural approach is effective. It has shown that by this technique the student's level of ability on reading comprehension ability is increasing. The result of the analysis shows that the value of (X) is 70.83 and (Y) is 84.16. This means that the score of post-test is higher than the pre-test. By looking at the result obtained, the writer

may conclude that the reading comprehension ability by using natural approach is on effective and interesting way that can be applied in teaching learning process.

5.2 Suggestion

Based on the result of the research, the writer gives some suggestions to English teacher, students, and readers. They are as follows:

1. In teaching English, especially to improve students reading comprehension ability because the result of this study shows that there is a positive effect to improve reading comprehension ability of students. It is suggested to readers to use Natural Approach in comprehending the reading texts.
2. The teacher of English should stimulate the students to study difficult words and give more explanation and exercises on the use of vocabulary so they can use reading comprehension ability in sentence. Based on the reality in class, some students didn't bring their own dictionary. In every meeting teacher should ask every student to bring their own dictionary. It is suggested to English teachers to use Natural Approach to improve the students' reading comprehension in reading text.
3. The students should always be motivated to learn reading comprehension ability because reading comprehension ability is one of the basic elements of the language for constructing sentence.
