

CHAPTER V

CONCLUSION AND SUGGESTION

5.1 Conclusion

After joining some procedures in analyzing the data collected during the research, the writer tries to draw the conclusions based on the result of data analysis. They are shown in the following.

1. The use of word wheel game is effective to teach vocabulary for seventh grade students in SMPN 8 Kupang.
2. There are some significant differences in research of teaching vocabulary by using word wheel. The student's level of vocabulary in the pre test was below average (4.75) while the post test level is average (6.1). The pre test was given before they had been taught without using word wheel and post test was given after they had been taught using word wheel technique.
3. In teaching vocabulary without technique or games especially word wheel game students had low motivation in classroom interaction but in playing word wheel the students had higher motivation in learning English especially about vocabulary.

5.2 Suggestions

Although the result of the study showed that the teaching of vocabulary by using word wheel is effective for the seventh grade students of SMPN 8 Kupang. There were still some difficulties faced by the students. Such as they cannot understand well about vocabulary in part of speech noun and adjective, they have

not willingness to study, Therefore, here the writer would like to offer some suggestion's as follows.

1. The English teacher of the researched school should pay attention to students' needs and characteristics by giving them some techniques to make them easier to learn English.
2. The English teacher should be more serious in helping the students to develop their skill in English especially about vocabulary.
3. Word wheel technique can be an alternative to overcome student's boredom in learning English.
4. This strategy or technique is suggested be used by English teacher or other researcher who wanted to conduct similar research or study.

Last the researcher hopes the result of this research can be used as an additional reference: there will be further research with different discussion which can make a revision within development of this technique.
